HUMNA MAQBOOL

IT Student | AI/ML & Data Science | Full-Stack Web Development | Cybersecurity

0325-4307960 | Humnamaq06@gmail.com | Lahore, Pakistan | www.linkedin.com/in/humna-maqbool21

My Portfolio: https://humnamaq70149086.github.io/My-Portfolio/

PROFILE

Information Technology student focused on AI/ML and data science, with full-stack web skills to turn models into working applications. Built prediction models with Python, scikit-learn, XGBoost and TensorFlow/Keras, and served them through Flask REST APIs. Also experienced with JavaScript, React, Flutter, Firebase, Docker-based CI/CD, and cybersecurity and AI governance. Detail-oriented, adaptable, and eager to solve real-world problems.

WORK EXPERIENCE

IT & Digital Transformation Intern, Community Task Foundation Home (CTF) — Present

- Maintain and update the NGO's website and support students with their learning and growth through its digital initiatives.

ISPR Internship — 2026

- Contributed to AI and cybersecurity projects through research, technical analysis, and development; explored AI applications in information analysis and security and assisted with threat-awareness initiatives.

PROJECTS

MediPredictAI – Multi-Disease Prediction App — Python | scikit-learn | XGBoost | TensorFlow/Keras | Flask | Flutter

- Built heart disease and diabetes prediction models (data preprocessing, feature selection, evaluation; moved from Random Forest to XGBoost) and a deep learning skin-disease classifier trained on DermaMNIST images.
- Served the models through a Flask REST API backend with a cross-platform Flutter frontend for mobile and desktop.

Docker CI/CD Pipeline — Jenkins | Docker | Kubernetes | AWS

- Developed a CI/CD pipeline for automated build, test, and deployment using Jenkins, Docker, and Kubernetes on AWS.

Web Projects: Nail Salon & Spa Portfolio, The Aesthetic Arc — HTML | CSS | JavaScript | Figma

- Built fully responsive websites from custom Figma designs, with interactive UI elements and cross-browser-compatible code.

KEY SKILLS & CHARACTERISTICS

- **AI/ML & Data:** Python, scikit-learn, XGBoost, TensorFlow/Keras, Flask, REST APIs
- **Programming & Web:** HTML, CSS, JavaScript, React, Dart, Flutter
- **Databases, Cloud & DevOps:** MySQL, Firebase, Docker, Kubernetes, Jenkins, SonarQube, AWS
- **Cybersecurity & Networking:** Network Security, Firewall Rules, Shodan, Hydra, Metasploit
- **OS, Tools & Design:** Linux, Ubuntu, Kali Linux, GitHub, VS Code, Figma, Canva

EDUCATION

BS Information Engineering Technology
University of Lahore, Lahore, Pakistan | 2023 – Present (Expected May 2027) | CGPA: 3.58 / 4.00

CERTIFICATIONS

- GenAI for Proposal Generation Job Simulation — EAB / Forage (2026)
- AI Cybersecurity and Governance — Columbia University (2026)
- Cybersecurity Job Simulation — Mastercard / Forage (2026)
- Artificial Intelligence Course — Hunarmand Punjab (2026)
- Foundations of Cybersecurity — Coursera / Google (2025)
- Advanced Graphic Designing — Enablers (2025)
